Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditors' Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Organization's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## 1. Organization and Summary of Significant Accounting Policies:

*Nature of Organization:* Good Sports, Inc. (the Organization) is a nonprofit organization incorporated in November 2003 whose mission is to increase youth participation in sports, fitness, and recreational programs by providing access to sports equipment, which is one of the major obstacles limiting participation. The Organization distributes sports equipment, footwear, and apparel to community organizations offering programs to disadvantaged youth, helping to lay the foundation for healthy, active lifestyles. The Organization partners with sporting goods manufacturers to ensure that disadvantaged youth are getting the equipment they need to participate.

*Basis of Presentation:* The financial statements of the Organization have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). The Organization reports information regarding its financial position and activities according to the following net asset classifications:

*Net Assets without Donor Restrictions:* Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Organization. These net assets may be used at the discretion of the Organization's management and Board of Directors.

*Net Assets with Donor Restrictions:* Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Organization or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

*Fair Value Measurements:* The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Organization has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

*Revenue Recognition:* Revenue is recognized when control of the goods and services provided is transferred to the Organization's customers and in an amount that reflects the consideration the Organization expects to be entitled to in exchange for those goods and services using the following steps: 1) identification of the contract, or contracts with a customer, 2) identification of performance obligations in the contract, 3) determination of the transaction price, 4) allocation of the transaction price to the performance obligations in the contract and 5) recognition of revenue when or as the Organization satisfies the performance obligations.

Revenue is reported as increases in net assets without donor restrictions unless use of the related assets is limited by donor-imposed restrictions. Revenue from shipping and handling fees represents amounts charged upon shipment of the related equipment.

Revenue related to special events is recorded net of expenses that provide a direct benefit to donors and is generally recorded when the event takes place.

The Organization typically invoices its equipment recipients upon shipment. Typical payment terms provide that equipment recipients pay within 30 - 90 days of invoice.

## 1. Organization and Summary of Significant Accounting Policies (Continued):

*Accounts Receivable:* Accounts receivable are stated at the amount management expects to collect from outstanding balances. An allowance for doubtful accounts is provided for those accounts receivable considered to be uncollectible based upon management's assessment of the collectability of receivables, which considers historical write-off experience and any specific risks identified in customer or donor collection matters. Bad debts are written off against the allowance when identified. As of December 31, 2019 and 2018, management believes no allowance for uncollectible accounts receivable is necessary.

Accounts receivable from contracts with customers for the year ended December 31, 2019 consists of the following:

		End of Year	Beginning of Year
Accounts Receivable	\$	34,373	\$ 19,097

*Contributions:* Contributions received are recorded as net assets without donor restrictions or net assets with donor restrictions, depending on the existence and/or nature of any donor-imposed restrictions. Donor restricted contributions are reported as an increase in net assets with donor restrictions, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of activities as net assets released from restrictions.

Contributed property and equipment are recorded at fair value at the date of donation. Contributions with donor-imposed stipulations regarding how long contributed assets must be used are recorded as net assets with donor restrictions. Otherwise, the contributions are recorded as net assets without donor restrictions.

Contributions of services are reported as revenue and expenses without donor restrictions at the fair value of the service received only if the services create or enhance a nonfinancial asset or would typically need to be purchased by the Organization if they had not been provided by contribution, require specialized skills, and are provided by individuals with those skills.

Contributions of goods and space to be used in program operations are reported as revenue and expenses without donor restrictions at the time the goods or space is received.

*Cash and Cash Equivalents:* The Organization maintains its cash and cash equivalents in bank deposit accounts, which, at times, may exceed federally insured limits. The Organization has a cash management program, which provides for the investment of excess cash balances primarily in short-term money market accounts, which are valued using Level 1 inputs. The Organization considers such highly liquid investments with original maturities of three months or less when purchased to be cash equivalents, except for those amounts that are held in the investment portfolio, which are invested for long-term purposes. The Organization has not experienced any losses in such accounts, and believes it is not exposed to any significant credit risk on cash and cash equivalents.

*Contributions Receivable:* Unconditional promises to give that are expected to be collected within one year are recorded at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at present value of their estimated future cash flows. The discounts on those amounts are computed using risk-adjusted interest rates applicable to the years in which the promises are received. Discount amortization is included in contribution revenue. Conditional promises to give are not included as support until the conditions are met.

*Investments and Investment Income:* The Organization's investments are reported at fair value as of the date of the statements of financial position. Realized and unrealized gains and losses are reflected in the accompanying statements of activities. Investment income or loss on investments (including realized and unrealized gains and losses on investments, interest and dividends) is included in net assets without donor restrictions unless the income or loss is restricted by donor or law.

*Concentrations of Credit Risk:* Financial instruments that potentially subject the Organization to concentration of credit risk consist primarily of cash, cash equivalents, investments, and contributions and accounts receivable. The Organization maintains its cash, cash equivalents and investments with high-credit quality financial institutions. Contributions and accounts receivable are carried at the outstanding principal balance, less an estimate for allowance for uncollectible

# 1. Organization and Summary of Significant Accounting Policies (Continued):

receivables based upon management's judgment of potential defaults. Management determines the allowance for doubtful accounts by identifying troubled receivables balances and by using an assessment of the donor's credit worthiness.

*Other Risks and Uncertainties:* Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of financial position.

*Inventory:* Inventory is stated at the lower of cost when purchased, fair market value on the date of donation or net realizable value. Cost is determined on the first-in, first-out (FIFO) method. Net realizable value is the estimated selling price in the ordinary course of business, less reasonably predictable cost of completion, disposal and transportation. Appropriate consideration is given to obsolescence, excessive levels, deterioration, and other factors in evaluating net realizable value.

*Property and Equipment:* Property and equipment are recorded at cost on the date of acquisition. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets, as follows:

Computer Equipment	5 Years
Furniture, Fixtures, and Equipment	7 Years
Leasehold Improvements	Lesser of Useful Life or Term of Lease

*Deferred Rent:* The Organization records rent expense on a constant periodic rate over the term of the lease agreement. The excess of the cumulative rent expense incurred over the cumulative amounts due under the lease agreement is deferred and recognized over the term of the lease.

*Advertising and Marketing:* The Organization expenses advertising and marketing costs as incurred. During the years ended December 31, 2019 and 2018, the Organization incurred advertising and marketing

expense in the amounts of \$164,304 and \$239,358, respectively, which includes \$55,650 and \$122,900, respectively, of donated marketing services.

*Shipping and Handling Costs:* Shipping and handling costs are included in distribution of equipment in the accompanying statements of functional expenses. During the years ended December 31, 2019 and 2018, the Organization incurred shipping and handling costs in the amount of \$333,348 and \$332,796, respectively.

*Functional Allocation of Expenses:* The costs of providing the Organization's program and other activities have been summarized on a functional basis in the statements of activities. Expenses related directly to program activities are charged directly to program services while other expenses that are common to several functions are allocated based on management's estimates, among major classes of programs services and supporting activities.

The expenses that are allocated include the following:

Expense	Method of Allocation
Salaries, Related Benefits and Taxes	Time and Effort
Warehouse Cost	Time and Effort
Advertising and Marketing	Time and Effort
Office Expenses	Time and Effort
Meetings and Travel	Time and Effort
Professional Fees	Time and Effort
Occupancy	Time and Effort
Insurance	Time and Effort

*Income Taxes:* The Organization is a nonprofit Organization as described in Section 501(c)(3) of the Internal Revenue Code and is exempt from federal and state income taxes on trade or business profits generated by activities related to the Organization's exempt function. The Organization may be subject to federal and state income taxes for profits generated from trade or business activities unrelated to the Organization's exempt function. As of December 31, 2019 and 2018, management believes that the Organization has not generated any unrelated business taxable income.

**1. Organization and Summary of Significant Accounting Policies (Continued):**

The Organization assesses the recording of uncertain tax positions by evaluating the minimum recognition threshold and measurement requirements a tax position must meet before being recognized as a benefit in the financial statements. The Organization's policy is to recognize interest and penalties accrued on any uncertain tax positions as a component of income tax expense, if any, in its statements of activities.

*Use of Estimates:* Management has used estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities in its preparation of the financial statements in accordance GAAP. Actual results experienced by the Organization may differ from those estimates.

*Subsequent Events:* Management has evaluated subsequent events spanning the period from December 31, 2019 through August 11, 2020, the latter representing the issuance date of these financial statements.

*Recently Adopted Accounting Policies:* In June 2018, the Financial Accounting Standards Board issued an Accounting Standards Update (ASU) 2018-08, *Not-For-Profit Entities: Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*, which establishes standards for characterizing grants and similar contracts with resource providers as either exchange transactions or conditional contributions. The Organization adopted the provision of this ASU beginning January 1, 2019, and has applied such provisions on a modified prospective basis. The impact of the adoption of this ASU was immaterial to the financial statements.

In 2014, the Financial Accounting Standards Board issued an Accounting Standards Update 2014-09, *Revenue: Revenue from Contracts with Customers* (ASC 606), which replaces the existing revenue recognition standards and significantly expands the disclosure requirements for revenue arrangements. Effective January 1, 2019, the Organization adopted the guidance under ASC 606 using the modified retrospective approach. Under ASC 606, revenue is recognized when the Organization satisfies a performance obligation by transferring goods or services promised in a contract to a customer, in an amount that reflects the consideration that the Organization expects to receive in exchange for those goods or services. Performance obligations in contracts represent distinct or separate service streams that the Organization provides to customers.

The Organization has chosen to elect a practical expedient available under ASC 606 that allows the Organization to only evaluate contracts which are not completed when determining the cumulative effect adjustment under the modified retrospective approach as of January 1, 2019, in connection with the adoption of ASC 606. As such, contracts that are "completed contracts" as of December 31, 2018, will not be required to be reviewed. Completed contracts represent contracts where all or substantially all of the revenue have been recognized under ASC 605 prior to the ASC 606 adoption date.

The impact of the adoption of the new revenue recognition guidance was determined to not be material to the Organization's financial statements.

**2. Availability and Liquidity:**
